During the one year I was in a homeopathy regime with Sonia I was pleasantly surprised to go from skeptic to believer as I saw my health become stable again. Many thanks to her for her caring.

I have had so many good experiences since I began to take the homeopathic medicines, like interesting dreams and different sensations. It has been very good. And, the best, I stopped the hormones about three or four days ago, and do not have any more bleeding. I am really happy. Thank you so much.
- Lucia

I am doing much better, now with only a little nasal running. .No more dry throat or headaches.

A couple of months ago I went to see Sonia for some help with a number of different issues. She gave me three different remedies. One of them was for general support. I've had a cough for three years. Tried many different things, none of them worked. Much to my surprise and happiness, the cough has almost completely gone away. Thank you, Sonia.

Natural Healing For Today's World

What is Homeopathy

Homeopathy is a system of natural medicine that is based on two main principles:

1. The law of similars and
2. The law of infinitesimal dose

Any substance, which can produce symptoms in a healthy person, can cure similar symptoms in a person who is sick. For example:

- An onion can make your eyes water and your nose burn. If you are having an attack of hay fever with watering eyes and a burning nose, a remedy made from onion can relieve it.

- Poison ivy causes redness, intense itching, burning, blistering and sometimes stiff muscles. A homeopathic remedy from poison ivy is used for herpes, burns, eczema, arthritis, etc.

Homeopathy works under the same principle of conventional allergy treatment or vaccination in that a small amount of the allergen or impotent form of the virus is given which awakens the body's immune response against that particular virus. It is effective, safe, natural, works in harmony with the living force instead of suppressing the immune system, it is not addictive. It addresses the causes and treats the person as a whole: the visible symptoms, the mental/emotional states and the general sensitivities.

What are homeopathic medicines?

They are derived from natural plant, animal, mineral sources and are prepared by dilution & dynamization to increase their therapeutic effect while essentially eliminating their capacity to harm. They are therefore safe for children, animals and pregnant/nursing women.
